### Dogs, puppies, and kittens OH MY!

Spring is here and so is puppy and kitten season. We are already seeing a huge increase in Intakes and surrender forms coming in each day. We have been very fortunate to partner with several northern rescues to transport animals to their adoption centers as space allows but our waiting list still continues to grow. Foster homes are always needed as the number of boarding and emergency kennels we have are currently limited. We are working with architects and a realtor on a Rescue One center that would provide us the ability to intake and board emergency rescues, allow us to partner with domestic violence shelters to temporarily house animals for affected families, and a community clinic that would provide low cost veterinary services to the public.. We are in the very beginning stages but are very excited about this project!

Our thanks goes out to all of our staff, volunteers, donors, fosters and adopting families who continue to share their lives and hearts with pets in need. Thanks to support from the community, over \$18,000 was raised through the Give Ozarks Rally for Recovery Event! With our expenses averaging around \$65,000 to operate every month, it couldn't have come at a better time. Your continued support has allowed us to rescue 8,115 animals since becoming licensed in 2014!

## OUT OF THE FIRE

We took in newborn kittens that had been in a house fire. By the time one of the firefighters got to them, three of them had stopped breathing. On the scene, they were able to perform mouth-to-mouth until they were breathing again. They were rushed to us where they were placed in an oxygen chamber. Having just lost their mother, we turned to one of our newest rescues for help, a mama cat who just came in with her two small kittens. She graciously accepted them as her own and they are doing great!

## FINALLY PAIN FREE

Tracker was surrendered to us with a bad leg. It was an old injury that caused severe nerve damage that caused him a great deal of pain. After 6 weeks of laser therapy, it was decided that in order to have relief, his leg would have to be amputated. He recovered well from surgery and gets around like a champ. He was adopted this past weekend by his foster family. Have a great life sweet Tracker!

## NO MORE HUNGRY NIGHTS

We recently partnered with Stone County Sheriff's Office to rescue 6 dogs that had been abandoned at a home for over two months. Included in the rescued was this sweet mom and her two puppies. She gave everything she had to help keep them alive. All of the dogs are doing well in their foster homes and because of your generosity, they will go to bed every night with love, comfort, and full bellies.
